care information

if your product is damaged in any way, or you're not sure how to use it, please consult our web support team (mountainbuggy.com/support).

caring for terrain™

- fabrics can be sponge cleaned with warm water, using a mild natural soap. do not use detergents or bleach.
- improper care will void any warranties. do not use the terrain™ if deterioration is detected or suspected.

important information

tyres and tubes

- the valve is car-size. manually inflate to 20 – 22psi max.
releasing air gives a softer ride but lower pressure reduces tread life.
- tyres and tubes are not under warranty. do not over inflate.
tyre pressure is affected by heat especially when inside parked cars.
